

IT Administration and Support - Student Job (20%-40%)

At MaxWell Biosystems, we develop advanced cell imaging platforms helping our customers in the pharmaceutical industry and academia make their drug discovery and research more efficient. We are looking for a talented candidate to become part of our international and diverse team and support us with internal IT support for Windows and Linux workstations.

Responsibilities

- Support internal users with IT-related issues
- Administrate and maintain Linux device controller host farm
- Administrate Windows workstations and laptops
- Develop scripts and automation tools
- Maintain Linux fileserver

Your Profile

- Reliable working attitude
- Experience with Linux and Bash
- Experience with Windows
- Open, communicative, and sociable

Are you motivated, innovative and committed to delivering first-rate performance? Do you enjoy working in an international, multidisciplinary, and diverse team? Then we might have a position for you. Join MaxWell Biosystems in innovating the future of electrophysiology for drug discovery and basic research.

Jan Müller is looking forward to receiving your application documents by e-mail to hr@mxwbio.com (cover letter, CV).
